2019 CONFERENCE

Updates & Announcements

Moving to a Track Session System

We are switching back to a track session system to better ensure that conference objectives are met, and attendees choose the presentations that matches their knowledge level. We have devised a rating system similar to college course listings. Additionally, sessions will be sorted into four distinct tracks to better help attendees decide which sessions best fit their needs.

We are combining conferences

The Legal and Quality of Life Conferences are being combined with our Annual Fall Conference.

Starting this year, topics normally covered in either our Legal Conference or the Quality of Life Conferences will instead be tracks within our Annual Fall Conference. As such, the Legal and Quality of Life Conferences will no longer be held as separate conferences.
